## SERV-RITE™

### Portable Shelves and Buffet Warmers SRB, SRBW, SRG, SRGBW, SRSS, and SRSSBW Series

## Installation and Operating Manual

P/N 07.04.435.00

#### ⚠ WARNING

Do not operate this equipment unless you have read and understood the contents of this manual! Failure to follow the instructions contained in this manual may result in serious injury or death. This manual contains important safety information concerning the maintenance, use, and operation of this product. If you're unable to understand the contents of this manual, please bring it to the attention of your supervisor. Keep this manual in a safe location for future reference.

#### ⚠ ADVERTENCIA

No opere este equipo al menos que haya leído y comprendido el contenido de este manual! Cualquier falla en el seguimiento de las instrucciones contenidas en este manual puede resultar en un serio lesión o muerte. Este manual contiene importante información sobre seguridad concerniente al mantenimiento, uso y operación de este producto. Si usted no puede entender el contenido de este manual por favor pregunte a su supervisor. Almacenar este manual en una localización segura para la referencia futura.

#### ⚠ AVERTISSEMENT

Ne pas utiliser cet équipement sans avoir lu et compris le contenu de ce manuel ! Le non-respect des instructions contenues dans ce manuel peut entraîner de graves blessures ou la mort. Ce manuel contient des informations importantes concernant l'entretien, l'utilisation et le fonctionnement de ce produit. Si vous ne comprenez pas le contenu de ce manuel, veuillez le signaler à votre supérieur. Conservez ce manuel dans un endroit sûr pour pouvoir vous y référer plus tard.

## INTRODUCTION

Hatco Serv-Rite™ Portable Shelves and Buffet Warmers are designed to keep prepared foods at optimum serving temperatures without affecting quality. They are perfect for self-serve buffet areas and customer serving points. All Serv-Rite warmers feature a thermostatically-controlled heated shelf. SRBW, SRGBW, and SRSSBW models feature an overhead halogen heat lamp.

Hatco Serv-Rite Portable Shelves and Buffet Warmers are products of extensive research and field testing. The materials used were selected for maximum durability, attractive appearance, and optimum performance. Every unit is inspected and tested thoroughly prior to shipment.

This manual provides the installation, safety, and operating instructions for Hatco Serv-Rite warmers. Hatco recommends all installation, operating, and safety instructions appearing in this manual be read prior to installation or operation of the Serv-Rite warmer.

Safety information that appears in this manual is identified by the following signal word panels:

### WARNING

**WARNING** indicates a hazardous situation which, if not avoided, could result in death or serious injury.

### CAUTION

**CAUTION** indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

### NOTICE

**NOTICE** is used to address practices not related to personal injury.

## IMPORTANT SAFETY INFORMATION

**Read the following important safety information before using this equipment to avoid serious injury or death and to avoid damage to equipment or property.**

### WARNING

#### ELECTRIC SHOCK HAZARD:

- Plug unit into a properly grounded electrical receptacle of the correct voltage, size, and plug configuration. If plug and receptacle do not match, contact a qualified electrician to determine and install proper voltage and size electrical receptacle.
- Turn OFF power switch, unplug power cord, and allow unit to cool before performing any cleaning, adjustments, or maintenance.
- DO NOT submerge or saturate with water. Unit is not waterproof. Do not operate if unit has been submerged or saturated with water.
- Unit is not weatherproof. Locate unit indoors where ambient air temperature is a minimum of 70°F (21°C).
- Do not pull unit by power cord.
- Discontinue use if power cord is frayed or worn.
- Do not attempt to repair or replace a damaged power cord. Cord must be replaced by Hatco, an Authorized Hatco Service Agent, or a person with similar qualifications.
- Never overload extension cord. Use heavy duty, three-wire extension cord only. Make sure current carrying capacity of extension cord complies with electrical rating of unit.
- Do not steam clean or use excessive water on the unit.
- This unit is not “jet-proof” construction. Do not use jet-clean spray to clean this unit.
- Do not clean the unit when it is energized or hot.
- Do not allow liquids to spill into the unit.
- Do not fill SRB and SRBW models with water. They are dry heat units only, not steam table units.
- Use only Genuine Hatco Replacement Parts when service is required. Failure to use Genuine Hatco Replacement Parts will void all warranties and may subject operators of the equipment to hazardous electrical voltage, resulting in electrical shock or burn. Genuine Hatco Replacement Parts are specified to operate safely in the environments in which they are used. Some aftermarket or generic replacement parts do not have the characteristics that will allow them to operate safely in Hatco equipment.

**FIRE HAZARD:** Locate the unit a minimum of 1" (25 mm) from combustible walls and materials. If safe distances are not maintained, combustion or discoloration could occur.

Use only low pressure halogen light/heat lamps that meet or exceed National Sanitation Foundation (NSF) standards and are specifically designed for food holding areas.

### WARNING

Make sure food product has been heated to the proper food-safe temperature before placing on the unit. Failure to heat food product properly may result in serious health risks. This unit is for holding preheated food product only.

This unit must be serviced by qualified personnel only. Service by unqualified personnel may lead to electric shock or burn.

This unit has no “user-serviceable” parts. If service is required on this unit, contact an Authorized Hatco Service Agent or contact the Hatco Service Department at 800-558-0607 or 414-671-6350; fax 800-690-2966; or International fax 414-671-3976.

### CAUTION

**BURN HAZARD:** Some exterior surfaces on unit will get hot. Use caution when touching these areas.

Locate unit at the proper counter height in an area that is convenient for use. Location should be level to prevent unit or its contents from falling accidentally and strong enough to support the weight of the unit and contents.

Make sure to clean and sanitize the heated stone shelves properly after using abrasives to deep clean the surface and before placing food product on unit.

### NOTICE

Do not lay unit on the side with the control panel or damage to the unit could occur.

Use non-abrasive cleaners on glass and metal surfaces. Abrasive cleaners could scratch the finish of the unit, marring its appearance and making it susceptible to soil accumulation.

Do not slide pans across glass surface, use rough-bottomed pans, or drop anything on glass surface. Scratching or breakage may occur. Damage to glass surface or breakage of glass caused by misuse is not covered under warranty.

Do not place anything on top of glass sneeze guard. It is not designed to be a weight-bearing component.

Do not attempt to install glass sneeze guard alone. Installation of glass sneeze guard is a two-person job.

Do not move unit by lifting or pulling by the sneeze guard.

Do not touch halogen heat lamps with bare skin. Oils from the skin will cause premature failure of the lamps.

# MODEL DESCRIPTION

## All Models

All Hatco Serv-Rite™ Portable Shelves and Buffet Warmers are ideal for self-serve buffet areas and customer serving points. Each is equipped with a removable utensil tray and is designed to hold hot food at safe serving temperatures. They feature a thermostatically-controlled heated shelf, durable stainless steel construction, sturdy aluminum extrusions, and a 6' (1829 mm) power cord with plug. Units come standard in Bold Black Gloss finish and are also available in several *Designer* colors or Bright Nickel Plated finish.

**NOTE:** Buffet Warmer models are available with clear glass sneeze guards or optional smoked glass sneeze guards. Refer to the OPTIONS AND ACCESSORIES section for all available options and accessories.

## Model SRB-1

The Serv-Rite Base (SRB) is a portable heated shelf. It is designed to hold either one full-size, two half-size, or three third-size steam table pans up to 2-1/2" (64 mm) deep. The SRB-1 is shipped from the factory fully assembled and ready for use.

Figure 1. Model SRB-1

## Model SRBW-1

The Serv-Rite Buffet Warmer (SRBW) is a heated shelf with overhead halogen heat lamps and a glass sneeze guard. It is designed to hold either one full-size, two half-size, or three third-size steam table pans up to 2-1/2" (64 mm) deep. The SRBW-1 requires installation of the glass sneeze guard before it is ready for use.

Figure 2. Model SRBW-1

## Model SRG-1

The Serv-Rite Glass Shelf (SRG) is a portable heated glass shelf. The SRG-1 is shipped from the factory fully assembled and ready for use.

## Model SRSS-1

The Serv-Rite Stone Shelf (SRSS) is a portable heated stone shelf. The SRSS-1 is shipped from the factory fully assembled and ready for use.

**NOTE:** Stone surfaces are a simulated stone solid surface.

Figure 3. Model SRG-1 and SRSS-1

## Model SRGBW-1

The Serv-Rite Glass Shelf Buffet Warmer (SRGBW) is a heated glass shelf with overhead halogen heat lamps and a glass sneeze guard. The SRGBW-1 requires installation of the glass sneeze guard before it is ready for use.

## Model SRSSBW-1

The Serv-Rite Stone Shelf Buffet Warmer (SRSSBW) is a heated stone shelf with overhead halogen heat lamps and a glass sneeze guard. The SRSSBW-1 requires installation of the glass sneeze guard before it is ready for use.

**NOTE:** Stone surfaces are a simulated stone solid surface.

Figure 4. Model SRGBW-1 and SRSSBW-1

**NOTE:** An extended heated shelf is available for SRG-1, SRSS-1, SRGBW-1, and SRSSBW-1 models. Refer to the OPTIONS AND ACCESSORIES section for details.

## MODEL DESIGNATION

Figure 5. Model Designation

## SPECIFICATIONS

### Plug Configurations

Units are supplied from the factory with an electrical cord and plug installed. Plugs are supplied according to the application.

**ELECTRIC SHOCK HAZARD:** Plug unit into a properly grounded electrical receptacle of the correct voltage, size, and plug configuration. If plug and receptacle do not match, contact a qualified electrician to determine and install proper voltage and size electrical receptacle.

*NOTE: Receptacle not supplied by Hatco.*

Figure 6. Plug Configurations

### Electrical Rating Chart — SRB and SRG Series

Model	Voltage	Watts	Amps	Plug Configuration	Shipping Weight
SRB-1	120	500	4.2	NEMA 5-15P	42 lbs. (19 kg)
	230 (CE)	500	2.2	CEE 7/7 Schuko, AS 3112, or BS-1363	42 lbs. (19 kg)
SRBW-1*	120	800 (1100)	6.7 (9.2)	NEMA 5-15P	68 lbs. (31 kg)
	230 (CE)	800 (1100)	3.5 (4.8)	CEE 7/7 Schuko, AS 3112, or BS-1363	68 lbs. (31 kg)
SRG-1	120	350	2.9	NEMA 5-15P	35 lbs. (16 kg)
	230 (CE)	350	1.5	CEE 7/7 Schuko, AS 3112, or BS-1363	35 lbs. (16 kg)
SRG-1-EXT	120	440	3.7	NEMA 5-15P	37 lbs. (17 kg)
	230 (CE)	440	1.9	CEE 7/7 Schuko, AS 3112, or BS-1363	37 lbs. (17 kg)
SRGBW-1*	120	650 (950)	5.4 (7.9)	NEMA 5-15P	61 lbs. (28 kg)
	230 (CE)	650 (950)	2.8 (4.1)	CEE 7/7 Schuko, AS 3112, or BS-1363	61 lbs. (28 kg)
SRGBW-1-EXT*	120	740 (1040)	6.2 (8.7)	NEMA 5-15P	63 lbs. (29 kg)
	230 (CE)	740 (1040)	3.2 (4.5)	CEE 7/7 Schuko, AS 3112, or BS-1363	63 lbs. (29 kg)

The shaded areas contain electrical information for International models only.

\* Watt and amp ratings in parentheses are for units with two optional 300 W halogen bulbs. Ratings without parentheses are for units with the standard two 150 W halogen bulbs.

# SPECIFICATIONS

## Electrical Rating Chart — SRSS Series

Model	Voltage	Watts	Amps	Plug Configuration	Shipping Weight
SRSS-1	120	350	2.9	NEMA 5-15P	35 lbs. (16 kg)
	230 (CE)	350	1.5	CEE 7/7 Schuko, AS 3112, or BS-1363	35 lbs. (16 kg)
SRSS-1-EXT	120	440	3.7	NEMA 5-15P	37 lbs. (17 kg)
	230 (CE)	440	1.9	CEE 7/7 Schuko, AS 3112, or BS-1363	37 lbs. (17 kg)
SRSSBW-1*	120	650 (950)	5.4 (7.9)	NEMA 5-15P	61 lbs. (28 kg)
	230 (CE)	650 (950)	2.8 (4.1)	CEE 7/7 Schuko, AS 3112, or BS-1363	61 lbs. (28 kg)
SRSSBW-1-EXT*	120	740 (1040)	6.2 (8.7)	NEMA 5-15P	63 lbs. (29 kg)
	230 (CE)	740 (1040)	3.2 (4.5)	CEE 7/7 Schuko, AS 3112, or BS-1363	63 lbs. (29 kg)

The shaded areas contain electrical information for International models only.

\* Watt and amp ratings in parentheses are for units with two optional 300 W halogen bulbs. Ratings without parentheses are for units with the standard two 150 W halogen bulbs.

## Dimensions — SRB Series

Model	Width (A)	Top Depth (B)†	Bottom Depth (C)	Height (D)	Footprint Width (E)	Footprint Depth (F)
SRB-1	31-3/4" (806 mm)	----- -----	22-1/8" (562 mm)	5-3/8" (136 mm)	28-1/2" (724 mm)	13" (330 mm)
SRBW-1‡	32-5/16" (820 mm)	26" (660 mm)	22-1/8" (562 mm)	21-7/8" (556 mm)	28-1/2" (724 mm)	13" (330 mm)

Figure 7. SRB-1 Dimensions

Figure 8. SRBW-1 Dimensions

† Top Depth (B) has a tolerance of +/- 1/8" (3 mm). Units with a single-sided sneeze guard have a Top Depth (B) of 19-7/8" (504 mm).

‡ Add 2" (51 mm) to Height (D) if equipped with optional extended support posts.

**NOTE:** SRBW-1 units have optional factory-installed extended support posts available. Refer to the **OPTIONS AND ACCESSORIES** section for more details.

## Dimensions — SRG and SRSS Series

Model	Width (A)	Top Depth (B)†	Bottom Depth (C)	Height (D)	Footprint Width (E)	Footprint Depth (F)	Surface Width (G)	Surface Depth (H)
SRG-1 and SRSS-1	31-3/4" (806 mm)	----- -----	22-1/8" (560 mm)	5-3/8" (136 mm)	28-1/2" (724 mm)	13" (330 mm)	20-5/8" (524 mm)	11-3/4" (300 mm)
SRG-1-EXT and SRSS-1-EXT	31-3/4" (806 mm)	----- -----	22-1/8" (560 mm)	5-3/8" (136 mm)	28-1/2" (724 mm)	13" (330 mm)	25-3/4" (655 mm)	11-3/4" (300 mm)
SRGBW-1‡ and SRSSBW-1‡	32-5/16" (820 mm)	26" (660 mm)	22-1/8" (560 mm)	21-7/8" (556 mm)	28-1/2" (724 mm)	13" (330 mm)	20-5/8" (524 mm)	11-3/4" (300 mm)
SRGBW-1-EXT‡ and SRSSBW-1-EXT‡	32-5/16" (820 mm)	26" (660 mm)	22-1/8" (560 mm)	21-7/8" (556 mm)	28-1/2" (724 mm)	13" (330 mm)	25-3/4" (655 mm)	11-3/4" (300 mm)

Figure 9. SRG-1 and SRSS-1 Dimensions

Figure 10. SRGBW-1 and SRSSBW-1 Dimensions

† Top Depth (B) has a tolerance of +/- 1/8" (3 mm). Units with a single-sided sneeze guard have a Top Depth (B) of 19-7/8" (504 mm).

‡ Add 2" (51 mm) to Height (D) if equipped with optional extended support posts.

**NOTE:** SRGBW-1 and SRSSBW-1 units have optional factory-installed extended support posts available. Refer to the **OPTIONS AND ACCESSORIES** section for more details.

# INSTALLATION

## General

Serv-Rite™ SRBW-1, SRGBW-1, and SRSSBW-1 models are shipped with most components pre-assembled. The glass sneeze guard must be installed on location. Serv-Rite SRB-1, SRG-1, and SRSS-1 models are shipped fully assembled and ready for use. Care should be taken when unpacking the shipping carton to avoid damage to the unit and components enclosed.

### WARNING

**ELECTRIC SHOCK HAZARD:** Unit is not weatherproof. Locate unit indoors where ambient air temperature is a minimum of 70°F (21°C).

**FIRE HAZARD:** Locate unit a minimum of 1" (25 mm) from combustible walls and materials. If safe distances are not maintained, combustion or discoloration could occur.

1. Remove the unit from the carton.
2. Remove tape and protective packaging from all surfaces of unit.

*NOTE: To prevent delay in obtaining warranty coverage, complete online warranty registration. See the IMPORTANT OWNER INFORMATION section for details.*

3. For SRBW-1, SRGBW-1, and SRSSBW-1 models, install the glass sneeze guard. The glass sneeze guard is installed between two plastic caps at each support post for protection.

### NOTICE

**Do not attempt to install glass sneeze guard alone. Installation of glass sneeze guard is a two-person job.**

- a. Place a plastic cap with the flat side facing up on each of the support posts.
- b. Carefully place the glass sneeze guard on top of the support posts and plastic caps. Make sure the holes in the glass sneeze guard are aligned with the holes in the plastic caps.
- c. Place a plastic cap with the flat side facing down over each of the holes on the glass sneeze guard. Make sure to align the holes in the plastic caps with the holes in the glass sneeze guard.
- d. Insert the cap screws through the top plastic caps, the glass sneeze guard, the bottom plastic caps, and into the support posts.
- e. Tighten each cap screw until secure. **NOTICE: Do not over-tighten the cap screws.**

Figure 11. Glass Sneeze Guard Installation

### NOTICE

**Do not move unit by lifting or pulling by the sneeze guard.**

4. Place the unit in the desired location.
  - Make sure the unit is at the proper counter height in an area convenient for use.
  - Make sure the countertop is level and strong enough to support the weight of the unit and food product.
  - Make sure all the feet on the bottom of the unit are positioned securely on the countertop.

## General

Use the following procedures to operate Serv-Rite™ Portable Shelves and Buffet Warmers.

### WARNING

Read all safety messages in the IMPORTANT SAFETY INFORMATION section before operating this equipment.

**ELECTRIC SHOCK HAZARD:** Do not fill SRB and SRBW models with water. They are dry heat units only, not steam table units.

### NOTICE

Do not place anything on top of glass sneeze guard. It is not designed to be a weight-bearing component.

Do not slide pans across glass surface, use rough-bottomed pans, or drop anything on glass surface. Scratching or breakage may occur. Damage to glass surface or breakage of glass caused by misuse is not covered under warranty.

## Startup

1. Plug the unit into a properly grounded electrical outlet of the correct voltage, size, and plug configuration. See the SPECIFICATIONS section for details.
2. Move the Power ON/OFF (I/O) switch to the ON (I) position.
  - The digital temperature controller will energize and the current temperature of the heated shelf will appear on the display.
  - The phrase “out 1” will appear in the upper left corner of the display to show that the base is in heat mode.
  - For SRBW-1, SRGBW-1, and SRSSBW-1 models; the overhead heat lamps will turn on if the LIGHTS ON/OFF (I/O) switch or the optional dimmer switch was in the ON (I) position the last time the unit was on.

### CAUTION

**BURN HAZARD:** Some exterior surfaces on the unit will get hot. Use caution when touching these areas.

3. Press and release the **set** key on the digital temperature controller to verify the setpoint temperature.
  - The setpoint temperature will be shown for 15 seconds. After 15 seconds, the display will revert to the current temperature of the heated shelf. To change the setpoint temperature, refer to “Changing the Setpoint Temperature” in this section.

Figure 12. Digital Temperature Controller

**NOTE:** The digital temperature controller is factory pre-set to a setpoint temperature of 190°F (88°C). Once the setpoint temperature is changed, the new setpoint temperature will remain in memory until it is changed again.

**NOTE:** SRB and SRG series have a digital temperature controller with a maximum setpoint temperature setting of 220°F (104°C), but the maximum operating temperature of the unit is 200°F (93°C). A temperature setting above 200°F (93°C) will not harm the unit.

SRSS-1 and SRSSBW-1 models have a maximum setpoint temperature setting of 195°F (90°C).

Figure 13. Serv-Rite Components

## OPERATION

- For SRBW-1, SRGBW-1, and SRSSBW-1 models; move the LIGHTS ON/OFF (I/O) switch or the optional dimmer switch to the ON (I) position to turn on the overhead heat lamps.

**NOTE:** For SRGBW-1 and SRSSBW-1 models; heat generated by the overhead heat lamps is absorbed by the glass or stone surface of the lower heated shelf during the preheat cycle. This causes the temperature shown on the display to rise past the setpoint temperature. The display will return gradually to the setpoint temperature once a pan or food product is placed on the heated surface.

- Allow the unit 30 minutes to reach operating temperature before placing preheated food product.

### Shutdown

- Move the Power ON/OFF (I/O) switch to the OFF (O) position. The digital temperature controller, heated shelf, and overhead heat lamps (if equipped) will shut off.

**NOTE:** For SRBW-1, SRGBW-1, and SRSSBW-1 models, if the LIGHTS ON/OFF (I/O) switch or the optional dimmer switch is left in the ON (I) position when the Power ON/OFF (I/O) switch is moved to the OFF (O) position, the lights will shut off as well. The lamps will turn on immediately the next time the Power ON/OFF (I/O) switch is moved to the ON (I) position.

- Unplug the power cord and allow the unit to cool before performing any cleaning or maintenance.

## Changing the Setpoint Temperature

Use the following procedure to change the setpoint temperature of the heated shelf.

- Press and release the **[set]** key. The current setpoint temperature will be shown on the display and "out 1" will flash in the upper left corner.
- Press the **[▲]** key or **[▼]** key within 15 seconds to change the setpoint temperature. If no key is pressed within 15 seconds, the display will revert to the current temperature of the unit.
- Press the **[set]** key or wait 15 seconds to lock in the new setpoint temperature.

**NOTE:** SRB and SRG series have a digital temperature controller with a maximum setpoint temperature setting of 220°F (104°C), but the maximum operating temperature of the unit is 200°F (93°C). A temperature setting above 200°F (93°C) will not harm the unit.

SRSS-1 and SRSSBW-1 models have a maximum setpoint temperature setting of 195°F (90°C).

## Locking/Unlocking the Digital Temperature Controller

The keys on the digital temperature controller can be locked to prevent unauthorized changes to the settings.

To lock the keys of the digital temperature controller:

- Press and hold both the **[set]** key and **[▼]** key at the same time for over two seconds. The message "Loc" will appear on the display.

To unlock the keys of a digital temperature controller:

- Press and hold both the **[set]** key and **[▼]** key at the same time until the message "UnL" appears on the display.

Figure 14. SRBW-1, SRGBW-1, and SRSSBW-1 Control Panel

## General

Serv-Rite™ Portable Shelves and Buffet Warmers are designed for maximum durability and performance with minimum maintenance.

### **⚠ WARNING**

#### **ELECTRIC SHOCK HAZARD:**

- Turn OFF power switch, unplug power cord, and allow unit to cool before performing any cleaning, adjustments, or maintenance.
- DO NOT submerge or saturate with water. Unit is not waterproof. Do not operate if unit has been submerged or saturated with water.
- Do not steam clean or use excessive water on the unit.
- Do not clean the unit when it is energized or hot.

This unit has no “user-serviceable” parts. If service is required on this unit, contact an Authorized Hatco Service Agent or contact the Hatco Service Department at 800-558-0607 or 414-671-6350; fax 800-690-2966; or International fax 414-671-3976.

## Cleaning

To preserve the finish of the unit as well as maintain performance, it is recommended that the unit be cleaned daily.

### **NOTICE**

**Use non-abrasive cleaners on glass and metal surfaces. Abrasive cleaners could scratch the finish of the unit, marring its appearance and making it susceptible to soil accumulation.**

**Submerging or saturating the unit with water will damage the unit and void the product warranty.**

1. Turn off the unit, unplug the power cord, and allow the unit to cool.
2. Remove and wash the utensil tray.
3. Remove and wash steam table pans and tray holder (SRB-1 and SRBW-1 models only).
4. Wipe down all metal surfaces using a damp cloth. A non-abrasive, cream cleaner may be used for difficult stains.
  - a. For SRB-1 and SRBW-1 models, make sure to wipe out the interior of the unit, including underneath the perforated element cover.
5. For SRBW-1, SRGBW-1, and SRSSBW-1 models, clean the glass sneeze guard using a standard glass cleaner.
6. For SRG-1 and SRGBW-1 models, clean the heated glass surface using a standard ceramic glass stove top cleaner.
7. For SRSS-1 and SRSSBW-1 models, refer to the “Cleaning the Stone Surface” section for additional cleaning information.

Figure 15. Cleaning Inside an SRBW-1 Model

## Cleaning the Stone Surface

Proper use of the products listed below will not damage the stone surface (follow the directions on the product labels).

*NOTE: Stone surfaces are a simulated stone solid surface.*

### **⚠ CAUTION**

**Make sure to clean and sanitize the stone surface properly after deep cleaning the surface using abrasives and before placing food product on unit.**

#### **Hard to Remove Stains**

For hard-to-remove stains, use the supplied abrasive pad along with an abrasive cleaner such as Ajax, Comet, Bon Ami, or Bar Keeper's Friend. Additional abrasive pads are available from Hatco (P/N 04.39.049.00). **NOTICE: Use supplied abrasive pad on stone surface only.**

*NOTE: Do not use steel wool or metal scouring pads.*

#### **Mineral Based Stains**

For a mineral-based stain, cleaners designed to remove iron or rust are recommended and should not harm the stone surface.

#### **Scratches**

For scratches, use sandpaper starting with the coarsest grit and going to finest grit until the scratch disappears. Blend area in with the supplied abrasive pad.

# MAINTENANCE

## Replacing the Heat Lamps

Use the following procedure to change the halogen heat lamps in SRBW-1, SRGBW-1, and SRSSBW-1 models.

### **⚠ WARNING**

Use only Genuine Hatco Replacement Parts when service is required. Failure to use Genuine Hatco Replacement Parts will void all warranties and may subject operators of the equipment to hazardous electrical voltage, resulting in electrical shock or burn. Genuine Hatco Replacement Parts are specified to operate safely in the environments in which they are used. Some aftermarket or generic replacement parts do not have the characteristics that will allow them to operate safely in Hatco equipment.

Use only low pressure halogen light/heat lamps that meet or exceed National Sanitation Foundation (NSF) standards and are specifically designed for food holding areas.

1. Turn off the unit, unplug the power cord, and allow the unit to cool.
2. Holding one hand under the lamp cover, use a screwdriver to remove the two screws that secure the lamp cover in position.

*NOTE: The glass shield inside the lamp cover is loose and will drop down with the lamp cover. Make sure to support the lamp cover with one hand during removal of the screws.*

3. Remove the old heat lamp from the lamp holder. The heat lamps are held in position with spring steel contacts on each side of the lamp holder. To remove:
  - a. Grasp the old heat lamp bulb and carefully push it into one of the spring steel contacts in the lamp holder to release it from the opposite side spring steel contact.
  - b. Pull the free end of the lamp down and remove the lamp from the lamp holder.

### **NOTICE**

**Do not touch halogen heat lamps with bare skin. Oils from the skin will cause premature failure of the lamps.**

4. While wearing cloth gloves or using other protection, install the new heat lamp into the lamp holder. To install:
  - a. Grasp the new heat lamp and carefully push one end into the spring steel contact in one side of the lamp holder.
  - b. Lift the other end of the lamp into position against the spring steel contact on the opposite side of the lamp holder (opposing pressure from the spring steel contacts will hold the lamp securely in the lamp holder).
5. Position the lamp cover with glass shield over the heat lamp and secure using the two screws.

Figure 16. Replacing a Heat Lamp

The following replacement halogen heat lamps are available from the factory or a Hatco Authorized Parts Distributor.

#### **Standard Wattage**

150 W, 120 V	02.30.150.00
150 W, 230 V (CE)	02.30.151.00

#### **High Wattage**

300 W, 120 V	02.30.117.00
300 W, 230 V (CE)	02.30.126.00

# TROUBLESHOOTING GUIDE

## WARNING

This unit must be serviced by qualified personnel only. Service by unqualified personnel may lead to electric shock or burn.

## WARNING

**ELECTRIC SHOCK HAZARD:** Turn OFF power switch, unplug power cord, and allow unit to cool before performing any cleaning, adjustments, or maintenance.

Symptom	Probable Cause	Corrective Action
Unit too hot.	Base setpoint temperature too high.	Change the base setpoint temperature on the digital temperature controller to a lower setting.
	For SRGBW-1 and SRSSBW-1 models: Pan(s) or food product not in position on heated glass or stone shelf.	Place pans or food product on heated glass or stone shelf to prevent overhead heat lamps from over-heating glass or stone shelf.
	Unit plugged into incorrect power supply.	Verify with qualified personnel that power supply matches unit specification.
	Digital temperature controller defective.	Contact Authorized Service Agent or Hatco for assistance.
Unit not hot enough.	Base setpoint temperature too low.	Change the base setpoint temperature on the digital temperature controller to a higher setting.
	Location of unit is susceptible to air currents (air conditioning ducts or exhaust fans).	Block air currents or relocate unit.
Unit not working at all.	Unit not plugged in.	Plug unit into proper power supply.
	Unit not turned on.	Move Power ON/OFF (I/O) switch to the ON (I) position.
	Power ON/OFF (I/O) switch defective.	Contact Authorized Service Agent or Hatco for assistance.
	Digital temperature controller defective.	Contact Authorized Service Agent or Hatco for assistance.
	Base heating element burned out.	Contact Authorized Service Agent or Hatco for assistance.
Stone surface material is stained, discolored, or has inconsistent staining/discoloration.	Stone surface is not being cleaned properly.	Clean surface using the "Cleaning the Stone Surface" information in the MAINTENANCE section of this manual. If these methods fail to produce acceptable results, contact Hatco for assistance.

## OPTIONS AND ACCESSORIES

### Carving Station Pan

The carving station accessory is available for SRB-1 and SRBW-1 models. It consists of a removable carving pan and a drip pan. Use the following procedure to install the carving station.

1. Remove any pans that are currently in the unit.
2. Remove the carving pan tray holder from the unit.
3. Slide the drip pan into the guides on the carving pan tray holder.
4. Replace the carving pan tray holder with drip pan into the unit.
5. Set the carving pan into the carving pan tray holder.

Figure 17. Carving Station

### Lights Dimmer Switch

An optional factory-installed dimmer switch is available for SRBW-1, SRGBW-1, and SRSSBW-1 models instead of the standard LIGHTS ON/OFF (I/O) toggle switch. The dimmer switch allows variable control of the heat and light intensity of the overhead halogen heat lamps.

### Food Pans

Stainless steel food pans are available in various sizes.

**ST PAN 1/3** .....Third-size stainless steel pan — 12-3/4"W x 6-7/8"D x 2-1/2"H (324 x 175 x 64 mm)

**ST PAN 1/2** .....Half-size stainless steel pan — 12-3/4"W x 10-3/8"D x 2-1/2"H (324 x 264 x 64 mm)

**ST PAN 2**.....Full size stainless steel pan at 2-1/2" (64 mm) deep — 12-3/4"W x 20-3/4"D x 2-1/2"H (324 x 527 x 64 mm)

Figure 19. Food Pans

### Trivets

Stainless steel or nickel-plated trivets are available in various sizes.

**TRIVET (1/4)SS** ....Quarter-size stainless steel trivet — 8-1/2"W x 4-1/2"D (216 x 114 mm)

**TRIVET (1/2)SS** ....Half-size stainless steel trivet — 10-3/16"W x 7-5/8"D (259 x 194 mm)

**TRIVET SS** .....Full size stainless steel trivet — 10-1/8"W x 18"D (257 x 457 mm)

**TRIVET (1/2)** .....Half-size nickel-plated trivet — 10-3/16"W x 7-5/8"D (259 x 194 mm)

**TRIVET** .....Full size nickel-plated trivet — 10-1/8"W x 18"D (257 x 457 mm)

Figure 20. Trivets

Figure 18. Control Panel with Optional Dimmer Switch

### Single-Sided Sneeze Guard

Optional single-sided sneeze guards are available for SRBW-1, SRGBW-1, and SRSSBW-1 models in clear or smoked glass.

### Extended Support Posts

Extended support posts are available as factory-installed options for SRBW-1, SRGBW-1, and SRSSBW-1 models. The extended support posts are 2" (51 mm) taller than the standard support post heights.

### Extended Heated Shelf

An extended heated shelf is available as an option for SRG, SRGBW, SRSS, and SRSSBW models. Extended heated shelf models come without the utensil tray in order to extend the heated shelf the full width of the unit.

Figure 21. SRGBW-1-EXT with an Extended Heated Shelf

## LIMITED WARRANTY

### 1. PRODUCT WARRANTY

Hatco warrants the products that it manufactures (the "Products") to be free from defects in materials and workmanship, under normal use and service, for a period of one (1) year from the date of purchase when installed and maintained in accordance with Hatco's written instructions or 18 months from the date of shipment from Hatco. Buyer must establish the Product's purchase date by returning Hatco's Warranty Registration Card or by other means satisfactory to Hatco in its sole discretion.

Hatco warrants the following Product components to be free from defects in materials and workmanship from the date of purchase (subject to the foregoing conditions) for the period(s) of time and on the conditions listed below:

**a) One (1) Year Parts and Labor PLUS One (1) Additional Year Parts-Only Warranty:**

Conveyor Toaster Elements (metal sheathed)  
Drawer Warmer Elements (metal sheathed)  
Drawer Warmer Drawer Rollers and Slides  
Food Warmer Elements (metal sheathed)  
Display Warmer Elements (metal sheathed air heating)  
Holding Cabinet Elements (metal sheathed air heating)  
Built-In Heated Well Elements — HWB, HWBI, and HWBI-S Series (metal sheathed)

**b) One (1) Year Parts and Labor PLUS Four (4) Years Parts-Only Warranty on pro-rated terms that Hatco will explain at Buyer's request:**

3CS and FR Tanks

**c) One (1) Year Parts and Labor PLUS Nine (9) Years Parts-Only Warranty on:**

Electric Booster Heater Tanks  
Gas Booster Heater Tanks

**d) Ninety (90) Day Parts-Only Warranty:**  
Replacement Parts

THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ANY OTHER WARRANTY, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR PATENT OR OTHER INTELLECTUAL PROPERTY RIGHT INFRINGEMENT. Without limiting the generality of the foregoing, SUCH WARRANTIES DO NOT COVER: Coated incandescent light bulbs, fluorescent lights, heat lamp bulbs, coated halogen light bulbs, halogen heat lamp bulbs, xenon light bulbs, glass components, and fuses; Product failure in booster tank, fin tube heat exchanger, or other water heating equipment caused by liming, sediment buildup, chemical attack, or freezing; or Product misuse, tampering or misapplication, improper installation, or application of improper voltage.

### 2. LIMITATION OF REMEDIES AND DAMAGES

Hatco's liability and Buyer's exclusive remedy hereunder will be limited solely, at Hatco's option, to repair or replacement using new or refurbished parts or Product by Hatco or a Hatco-authorized service agency (other than where Buyer is located outside of the United States, Canada, United Kingdom, or Australia, in which case Hatco's liability and Buyer's exclusive remedy hereunder will be limited solely to replacement of part under warranty) with respect to any claim made within the applicable warranty period referred to above. Hatco reserves the right to accept or reject any such claim in whole or in part. In the context of this Limited Warranty, "refurbished" means a part or Product that has been returned to its original specifications by Hatco or a Hatco-authorized service agency. Hatco will not accept the return of any Product without prior written approval from Hatco, and all such approved returns shall be made at Buyer's sole expense. HATCO WILL NOT BE LIABLE, UNDER ANY CIRCUMSTANCES, FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, INCLUDING BUT NOT LIMITED TO LABOR COSTS OR LOST PROFITS RESULTING FROM THE USE OF OR INABILITY TO USE THE PRODUCTS OR FROM THE PRODUCTS BEING INCORPORATED IN OR BECOMING A COMPONENT OF ANY OTHER PRODUCT OR GOODS.
